

OVERVIEW

- ▶ Indoor coils can be adapted to both 13 and 14 SEER models
- ▶ 2 – 5 ton models available
- ▶ Models are designed to suit a variety of situations and budgets
- ▶ All aluminum coil design
- ▶ 4MXC cased coils may be installed in upflow, downflow or horizontal applications to fit the space provided in your customer’s home
- ▶ Foil-faced thermal insulation makes cleaning simple and helps reduce service time
- ▶ Designed with multiple condensate line connections, offering a wider range of installation options

4MXC COIL FAMILY

American Standard's 4MXC coils offer the best in comfort and flexibility with their multi-position design and reliable, all aluminum composition.

These coils are designed to perfectly compliment your American Standard system, helping to keep you comfortable all year long.

Model Number	Tonnage	Height (in.)	Width (in.)	Depth (in.)	Factory-Installed Piston Size	Other Piston Sizes Included
4MXCB004AC6HCA	1.5, 2, 2.5, 3	20	17.5	21	70	52, 58, 63, 65
4MXCB006AC6HCA	2.5, 3, 3.5, 4	26	17.5	21	83	65, 70, 75
4MXCC009AC6HCA	3.5, 4, 5	30	21	21	90	75, 83

Please note:

When installing 4MXC models manufactured before date code 19364 with a condensing, S-Series furnace a MAY*FERCOLKIT* is required. 4MXC models manufactured on or after date code 19364 include a built-in heat shield and do not require additional kits.

PROTECT YOUR INVESTMENT
