PLATINUM SERIES

Our most efficient and innovative gas furnace just might be our most comfortable too. Annual Fuel Utilization Efficiency (AFUE), ratings of up to 97.3% help convert nearly 100% of fuel into usable heat. AccuLink™ communicating capability and a modulating gas valve are just a few of the features that come together in this family to provide a seamless experience and unmatched comfort.

SINGLE- AND TWO-STAGE GAS FURNACES

With a commitment to quality and comfort, American Standard® Heating & Air Conditioning's single- and two-stage gas furnaces deliver just the right amount of heat with AFUE ratings of 92.1% - 97%.

AWARD-WINNING EXCELLENCE.

2021

Top Tier Owner Satisfaction for Central Air Conditioning

"A National Product Testing and Research Magazine"

In a survey based on the proportion of members who are extremely likely to recommend their central air conditioning system to friends and family found American Standard Central Air Conditioning Systems' to be Top Tier in 2018 and 2020 Summer Surveys of 23,997 central air conditioning systems, owned by members who installed a new system between 2005-2020.

2019

Top Tier Owner Satisfaction for Gas Furnaces

"A National Product Testing and Research Magazine"

In a 2018 Winter Survey & 2019 Summer Survey of 48,318 subscribers, American Standard gas furnaces rated Top Tier in Owner Satisfaction for new units purchased between 2003 & 2019.

Top Tier Owner Satisfaction for Heat Pumps

"A National Product Testing and Research Magazine"

In a 2018 Winter Survey & 2019 Summer Survey of 12,463 subscribers, American Standard heat pumps rated Top Tier in Owner Satisfaction for new units purchased between 2003 & 2019.

WE OBSESS OVER IT SO YOU DON'T.

For over a hundred years, we've made some of the most awarded, well-engineered heating and air conditioning equipment, and earned a reputation for doing things ...right. And through it all, we've followed a pretty simple idea: "A Higher Standard" isn't just how we build our products. It's how we build our relationships with the customers who depend on us every single day.

A CLOSER LOOK

Direct Vent
100% fresh air option reduces heat exchanger corrosion and ensures adequate combustion air.

Multi-Port In-Shot Burners
Perfectly shape the flame cone for the maximum heat possible while using less fuel.

Silicon Nitride Hot Surface Igniter
Highly reliable ignition system provides longer service life.

Fully Modulating Gas Valve
Highly reliable, proven design that operates between 40% and 100% depending on your specific heating needs, providing for ultimate comfort and greater efficiency.

Simplified Three-Wire Connection
Allows for easy installation and is less invasive to the structure of your home.

Automotive-Grade Gaskets And Insulated Blower Compartment
Help reduce operating sound and air infiltration.

Platinum 95

Heavy Steel Insulated Cabinet
Insulated panels hold more heat in the furnace, ensure greater durability and reduce operating sound.

Primary Heat Exchanger
Crimped, not welded, to prevent cracks from heat stress. Stamped serpentine channel offers the greatest efficiency in less space.

Secondary Heat Exchanger
Made of AL29-4C stainless steel to capture more of the heat you pay for.

Variable-Speed Draft Inducer
Works with modulating gas valve to enhance efficiency, comfort and reliability.

Variable-Speed Blower Motor with Comfort-R™
Allowing quieter system startups and shutdowns, greater efficiency and more thorough heat circulation. Also helps control humidity levels during summer months.

Communicating User Interface
Clearly displays ComfortLink® II diagnostics to your installer for easy setup and service.

Multi-port in-shot burners
Perfectly shape the flame cone to maximize heating while using less fuel.

Two-Stage Gas Valve
Results in greater efficiency by using just the right amount of fuel for each stage, providing more comfort with lower, longer run times and reduced temperature swings.

Two-Speed Draft Inducer
Works seamlessly with the two-stage gas valve to enhance efficiency, comfort and reliability.

Vortica™ II Blower
Designed exclusively for American Standard and performs quietly and efficiently in both heating season and cooling season.

S9V2

Durable Hot Surface Igniter
Starts burner electronically for safe, efficient operation. This eliminates the need for a fuel-burning pilot light.

Stainless Steel Primary Heat Exchanger
Withstands higher temperatures, resists corrosion, and is efficient at heat transfer while improving airflow efficiency in both winter and summer.

Secondary Heat Exchanger
Extracts even more heat from the combustion process and is made of corrosion-resistant stainless steel.

Variable-Speed ECM Blower Motor with Comfort-R™
Operates at a lower, more efficient speed than conventional blower motors, while our exclusive Comfort-R™ feature ensures greater humidity control during cooling.

Ask your dealer for full warranty information at time of purchase.

As part of our continuous product improvement, American Standard Heating & Air Conditioning reserves the right to change specifications and design without notice. Read important energy cost and efficiency information available from your dealer. For installation in SCAQMD only: This furnace does not meet the SCAQMD Rule 1111 14 ng/J NOx emission limit, and thus is subject to a mitigation fee of up to \$450. This furnace is not eligible for the Clean Air Furnace Rebate Program: www.CleanAirFurnaceRebate.com.

*An American Standard AccuLink™ Platinum 1050 connected control or Gold 900 thermostat is required for communicating capability on Platinum 95 modulating furnaces.

COMFORTABLE. RELIABLE. EFFICIENT.

Optimize the comfort and efficiency of your home with the American Standard Home smart comfort system. The American Standard Home mobile app gives you remote access to your HVAC system through your connected American Standard smart thermostat. Adjust your temperature, set your schedule, and view your HVAC usage from anywhere.

WHY IS INDOOR AIR QUALITY IMPORTANT?

We spend 90% of our time indoors, and 70% of that is in our home² where the air can be up to 5X poorer quality than the air outside³. So, AccuClean[®] utilizes patented technology to deliver cleaner air to the whole home by removing up to 99.98% of airborne particles⁴ that pass through the re-usable filter, including 99.9% of the Influenza A (H1N1) virus⁶. This level of filtration makes it up to 100X more effective than a standard 1" filter⁵. Plus, it's the **ONLY** whole-home electronic air cleaner that is certified **asthma & allergy friendly**⁷ by the Asthma & Allergy Foundation of America.

American Standard Home connects to your American Standard HVAC system to provide you with remote control and diagnostics. To view additional integrations and subscriptions, visit our Knowledge Base at AmericanStandardAir.com/home-subscription.

² The National Human Activity Pattern Survey (2001)

³ U.S. Environmental Protection Agency. EPA/600/6-87/002a. (1987)

⁴ Based on 3rd party testing of particle removal efficiency down to 0.3 microns (2005)

⁵ Assuming <1% removal rate of 0.3 – 10 micron particles

⁶ As reported by airimid healthgroup in ASCR092142v2 (2015)
